

PRESS RELEASE N. 3 - 10/03/2023

WinteRace 2023: the history of cars on the Dolomite roads

The 45 vintage cars and 25 iconic cars from the history of automobiles from 1976 to the present day, with their parade on Corso Italia in Cortina d'Ampezzo, concluded the first part of the 200-kilometer itinerary.

The first part of the 200-kilometer Dolomite route of WinteRace Cortina 2023, a winter event on the A.S.I. calendar, started as planned this morning at 9:00 am from Corso Italia in Cortina d'Ampezzo. The itinerary included crossing five mountain passes: Falzarego, Valparola, Gardena, Campolongo, and Giau before returning to Cortina d'Ampezzo for the traditional parade on the catwalk. In line with the event's glamorous spirit, there were planned stops in classy locations: in Val Gardena at Chalet Gerard, in Bressanone at the Oste Scuro restaurant after the car show in Piazza del Duomo, from where the teams then set off to visit the Abbey of Novacella. The teams then continued the Dolomite roads through Arabba, Livinallongo, and Colle di Santa Lucia. Numerous Aston Martin cars also participated in the event to celebrate the 110th anniversary of the British automaker. Another highlight, at the end of the stage but of a cultural nature for the participants and reserved only for event registrants, was the visit to the exhibition of iconic Harper's Bazaar magazine covers from 1940 to today, set up at Franz Kraler on Corso Italia. In the ranking of precision tests of the historic A.S.I. car drivers, the teams contending for the final podium in tomorrow's stage will be teams' number 1, 2, 11, 34, and 12 respectively driving a Fiat 1100 103 from 1957, a Bugatti T 37 from 1927, a Porsche 356 Speedster from 1955, a Mini Cooper from 1972, and a Triumph TR 3 from 1958.

The second part of WinteRace, another 200 kilometers, will start tomorrow at 9:00 am, again from Corso Italia in Cortina d'Ampezzo, to reach Lienz in Austria before returning and ending in Cortina at 4:30 pm.
