

PRESS RELEASE N. 3 30/1/2024

All the news of the eleventh WinteRace in Cortina d'Ampezzo

Seventy teams will participate from March 7th to 9th in the upcoming event reserved for vintage and iconic modern cars. Participants will drive their vehicles along the Dolomite roads for just over 400 kilometers, divided into two stages.

Cortina d'Ampezzo. The countdown begins for the eleventh edition of WinteRace Cortina, taking place from March 7th to 9th, 2024, an A.S.I. (Historical Italian Automotive Club) event listed on the calendar on behalf of the Circolo Veneto Auto Moto d'Epoca Giannino Marzotto. There are 70 participants registered for WinteRace, with 50 driving vintage cars built before 1999 and 20 with cars included in the special ICON section reserved for automobiles considered iconic references in the global automotive production. Foreign participants come from Belgium, the Netherlands, Luxembourg, Switzerland, Mexico, and Monte Carlo. Among the Italians, the trend of passing down the passion for vintage cars continues, with the presence of teams composed of fathers and sons.

"In this edition, we decided to add new mountain locations to the event route," says Rossella Labate, the event organizer, "while maintaining the classic length of the route just over 400 kilometers, divided into two stages. On Friday, March 8th, after the start from Corso Italia in Cortina d'Ampezzo at 9:00 am, participants will follow the Dolomite roads to and from Alpe di Siusi, tackling alpine passes such as Pinei, Nigra, and Costalunga that have never been included in the routes of previous WinteRace editions. Other novelties include passing through Castelrotto, Siusi, and Fiè allo Sciliar between 11:00 am and 12:00 pm, a stop and visit to Prösels Castle, the presentation of cars in Moena around 12:30 pm, just before the stop in Vigo di Fassa. The return to Cortina d'Ampezzo, always on Corso Italia (the first car will arrive at 5:00 pm), includes passing through Passo San Pellegrino, Falcade, Cencenighe, Caprile, Selva di Cadore, and Passo Giau. On Saturday, March 9th - Rossella Labate continues - after the start from Cortina of the first car, again at 9:00 am with a return at 4:30 pm, WinteRace participants will retrace the Passo Giau in the opposite direction, then pass through Forcella Staulanza and Forcella Cibiana in order. In this stage, the cars will be presented around 11:00 am in Pieve di Cadore, from where they will later reach the Passo di Sant'Antonio. After passing through Padola, participants will stop first for lunch in Monte Croce Comelico pass and then in Dobbiaco. The return will follow the road towards Lake Misurina and the subsequent Passo Tre Croci. WinteRace confirms its vocation - concludes Rossella Labate - as both a glamorous event for style, conviviality, and passion and an elegant lever for territorial marketing."
