

PRESS RELEASE N. 2, 09/11/2023

## ICON: The future classic cars at the WinteRace in Cortina d'Ampezzo

Registrations will close on November 30th to be among the 70 protagonists of the eleventh edition of the winter event on the ASI calendar. Among the eligible vehicles are also the modern ones from the ICON category, the historic cars of the future.

**Cortina d'Ampezzo.** For the eleventh edition of WinteRace Cortina, which will take place from March 7th to March 9th, 2024, numerous teams from abroad, especially from overseas, have already registered. However, there is still time to be among the 70 participants in the WinteRace Cortina - an event organized by A.S.I. (Italian Historical Automobile Club) on behalf of the Circolo Veneto AutoMoto d'Epoca Giannino Marzotto, until November 30th.

At WinteRace, 40 vintage cars built before 1999 and 30 vehicles registered in the ICON section, produced from 2000 to the present day, and chosen from those that meet the requirements to be considered iconic landmarks in the global automotive production, can participate.

"The decision to admit vehicles in the ICON category to WinteRace, **"says Rossella Labate, the event organizer"**, is the result of our specific vision. We want our event to make people dream, allowing them to admire in Cortina d'Ampezzo and on the Dolomite roads both the history of automotive throughout the 20th century and the modern cars that, in terms of design, technology, and rarity, will be the vintage cars of the future. In our opinion, this mountainous world and the queen of the Dolomites provide the ideal stage to showcase their characteristics. On the one hand, nature imposes a respectful brake on the power of modern supercars with its roads and scenic context, and on the other hand, it enhances the efforts of the crews driving cars from the 1930s, like the Bugatti winner of the WinteRace of the last decade. Those who participate in our winter event, "Rossella Labate continues", are aware that they are active witnesses of the history of both the cars of the past and the future, and they experience it in a glamorous yet friendly and passionate atmosphere".

The format of the event, let's remember, remains the same: there will be two stages for a total of approximately 400 kilometers, and the start and finish are planned on Corso Italia in Cortina d'Ampezzo.
